PROFESSIONAL SUMMARY

Lead Product Designer with 5+ years of experience in User Experience (UX) Design across mobile apps, responsive websites and enterprise web platforms in HealthTech and PropTech. Applies user-centered design principles and methodologies, using user research and usability testing to inform design decisions. Translates design concepts into wireframes and interactive prototypes quickly, balancing design intent with technical feasibility through close collaboration with development teams. Leads and mentors a design team, contributes to key product decisions across multiple teams, and has taken products from 0 to 1 as a founding design member at two startups.

WORK EXPERIENCE

Lead Product Designer, HealthSy

Aug 2024 – Present

Coimbatore, India · HealthTech

- Lead end-to-end user experience (UX) design and product strategy across HealthSy's consumer apps, pharmacy software and internal tools, setting design priorities with founders, product and engineering.
- Built and manage the design team, hiring and mentoring UI/UX and graphic designers, owning team design decisions and establishing the team's design process.
- Translate design concepts into interactive prototypes using Figma, Figma Make, Framer and Lovable, validating ideas with stakeholders and checking technical feasibility with engineering before development.
- Designed HealthSy 2.0, bringing five healthcare services (medicine ordering, online consultation, home healthcare, healthcare products and in-clinic appointments) into one mobile app on a shared design system.
- Designed a 0-to-1 pharmacy operations platform for small, mid-size and large pharmacies, with role-based permissions covering inventory, procurement, billing, delivery, finance and reporting.
- Designed a multi-team CRM from scratch that centralises leads, follow-ups, assignments and customer interactions for internal teams.
- Launched the pharmacy website, in-store kiosk app, store admin panel and WhatsApp support system.
- Own the design system and brand consistency across products, landing pages and marketing campaigns, working with the marketing team.

Senior Product Designer, HealthSy

Mar 2023 – Aug 2024

Coimbatore, India · HealthTech

- Took HealthSy from 0 to 1 as a founding design member, turning the founders' business requirements and research into product goals, user flows and wireframes.
- Designed the User, Pharmacy, Doctor and Delivery Partner mobile apps (iOS and Android) and admin panels for internal operations teams.
- Created the HealthSy design system and designed the company website from concept to launch.
- Launched new healthcare services: Prescription Writer, InstaDoc online consultations and HHSP home healthcare.
- Revamped the partner and user apps and optimised the backend panel to make day-to-day operations smoother.
- Validated releases through usability testing and customer feedback, and worked with developers and QA on developer handoff and design QA.

- Designed PropReturns' real-estate ecommerce platform from scratch to launch, including the REIT product experience; the platform facilitated transactions worth ₹100 crore.
- Reduced bounce rate and increased user engagement by improving the UX and site navigation based on user research and usability testing.
- Built the design system, company website and operations admin panels, with responsive design across desktop, tablet and mobile.
- Led user research and feature planning with the founders, producing wireframes, prototypes and high-fidelity mockups for development.
- Designed the brand identity, brochures and social media creatives.

SKILLS

Product Design: User Experience (UX) Design, End-to-End Product Design, User-Centered Design Principles and Methodologies, Product Strategy, UX Strategy, Design Thinking, 0-to-1 Product Development, MVP Definition

UX Design: User Research, User Interviews, Personas, Usability Testing, Journey Mapping, Information Architecture, User Flows, Task Flows, Wireframing, Rapid Prototyping, Low- and High-Fidelity Prototypes, Interactive Prototypes, Interaction Design

UI Design: Design Systems, Component Libraries, Visual Design, UI Design, Responsive Design, Mobile App Design (iOS & Android), Web Design, Dashboard Design, Enterprise UX, Data-Heavy Interfaces, Role-Based Access Design

Collaboration: Design Leadership, Team Mentoring, Cross-team Decision Making, Stakeholder Management, Cross-functional Collaboration, Front-End Development Collaboration, Technical Feasibility Reviews, Developer Handoff, Design QA

Tools: Figma, Figma Make, FigJam, Framer, Lovable, Vercel, Claude, ChatGPT, AI-Assisted Prototyping, Adobe Photoshop, Adobe Illustrator
